

**ELIGIBILITY CRITERIA**

- ❖ New equipment must be purchased, installed, and operating (generating kWhs) in 2026 on Jackson Electric Cooperative's lines. Active membership only.
- ❖ Rebates are in place through December 31, 2026, or until funds are depleted. **Availability of rebates and incentives is subject to change without notice.**
- ❖ Rebate not to exceed the equipment cost.
- ❖ Rebate not allowed for a measure and a component of that measure. For example, if an air source heat pump has a variable speed blower motor, the air source heat pump qualifies for a rebate but not the variable speed blower motor.
- ❖ Submit the required documentation listed below within **60 days of invoice date**. If submitted after December 31, 2026, equipment will be considered for the 2027 incentive if offered. Members are encouraged to submit as soon as possible to ensure rebate.
  - ✓ Completed rebate form;
  - ✓ A copy of your receipt or invoice for each item purchased with the purchase price and date of purchase highlighted; and
  - ✓ Documentation showing the equipment has been installed
- ❖ All heat pump incentive requests in excess of 6 tons at one meter location will be evaluated individually on a custom basis instead of receiving the prescriptive incentive. More than 6 tons will be paid at Dairyland Power's rebate amount.
- ❖ Rebate amounts less than \$500 will be applied as a credit to your billing statement.

Submit required documentation to: Jackson Electric Cooperative, N6868 County Road F, Black River Falls, WI 54615
