

WATER HEATER REBATES

Purchase a qualified energy efficient electric water heater and you can receive a rebate of up to \$300. Simply submit a completed rebate form, a copy of your receipt or invoice for the item purchased and documentation showing the item has been installed. (Some qualifications apply).

75-99 gallon water heater... \$150

100+ gallon water heater... \$300

To qualify, water heaters must have a Uniform Energy Factor of $\geq .88$ and must be enrolled in Jackson Electric's energy management program.

If a 100-gallon water heater is purchased through Jackson Electric, the \$300 rebate will be deducted from the purchase price when an energy management receiver is installed.

Heat pump water heater... \$300

Integrated (all-in-one) units. Uniform Energy Factor ≥ 2.00 . Heat pump water heaters do not qualify for the energy management program.

Terms and Conditions

- Rebates are not to exceed the equipment cost.
- New equipment must be purchased, installed, and operating (generating kWhs) in 2021.
- Active Jackson Electric Cooperative membership only.
- Installed new equipment must be on Jackson Electric Cooperative lines.
- New equipment is subject to verification by a Jackson Electric representative.
- Rebates are in place through December 31, 2021, or until funds are depleted.
- Availability of rebates is subject to change without notice.
- Required documentation must be submitted within 60 days of invoice date or no later than December 31, 2021, whichever comes first.
- Application may be rejected if all required documentation is not completed and submitted.
- Water heaters must be installed within 30 days of purchase and energy management receivers must be installed within 45 days of purchase. Failure to do so may result in the member being charged the full water heater price.
- Rebate forms available at www.jackelec.com.
